NOTES

1. This publication provides lists of all officers on active duty. Active duty officers are shown in three categories: (1) Lineal list officers defined in Title 10, U.S. Code, Section 5504; (2) Officers of the Naval Reserve assigned active duty in connection with training, administration, and recruiting of the Naval Reserve (TAR's); and (3) Women officers appointed under Title 10, U.S. Code Section 5590, and nonlineal list Women Reserve Officers.

2. The lineal numbers assigned consist of a whole number and a sub-number. Use of the sub-number permits additions to the official lineal list, TAR program or nonlineal women officers list, without requiring renumbering of lists each time a gain occurs. Numbers may not be consecutive but they always will be sequential. For example, an officer with a number and subnumber of 08939–40 is normally senior to the officer with a number of 08939–82. An officer with a number of 08902–50 would be senior to both, if of the same corps. Staff corps officers on the lineal list having the same date of rank and the same running mate as defined in notes 4 to 7 below, rank according to seniority of corps as follows:

Medical Corps	Dental Corps
Supply Corps	Medical Service Corps
Chaplain Corps	Nurse Corps
Civil Engineer Corps	

3. Officers in the grade of ensign commissioned with a date of rank between 1 January and 31 December 1960 take precedence among themselves in the order of alphabetical listing of names within date of rank until the determination of precedence in accordance with current regulations. Therefore, lineal numbers have not been assigned to ensigns with dates of rank in 1960. Student officers with designators 1915, 1925, and 1945 take precedence with other ensigns in order of alphabetical listing of name within date of rank and will not be assigned a lineal number until such time as they have accepted a commission in the staff corps for which they are in training.

4. The running mate for a lineal list staff corps officer is the lineal list line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately ahead of the staff corps officer.

5. The running mate for a TAR officer is the lineal list line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately below that of the TAR officer.

6. The running mate for a USN nonlineal list woman staff corps officer is the USN nonlineal list woman line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately ahead of the staff corps officer.

7. The running mate for a USNR nonlineal list woman officer is the USN nonlineal list woman line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately below that of the USNR woman officer.

8. The lineal numbers assigned herein were effective on 1 January 1961. Although TAR's and women officers as defined in Title 10, U.S. Code, Section 5504 are not lineal list officers, they have been assigned a lineal number for the purpose of convenience in determining their relative seniority.

9. The lozenge symbol (⌑) printed immediately preceding the name indicates that the officer has been selected for promotion to the next higher grade. Attention is invited to the fact that some selectees will have been promoted by the time the Register is distributed, or will be promoted subsequent thereto, and that lineal numbers in these cases will not indicate the proper lineal position and/or seniority.

10. The Current Source Code listed in column four indicates the public law or procurement program under which each officer received his present commission. The laws and programs listed below are not all presently in effect.

11. The two-digit number appearing in column five headed "Service Date" indicates the date from which an officer's commissioned service is deemed to have commenced for the purpose of determining eligibility for continuation on the active list or involuntary separation from the active list as defined in Title 10, U.S. Code, Sections 6387 and 6388. This date is always 30 June of the year indicated, except the service date for nurses as indicated herein is the fiscal year in which their credited active service commenced and is not necessarily 30 June. Service date is not applicable to temporary officers, reserve officers, warrant officers, or women officers appointed under Title 10, U.S. Code, Section 5590.

12. On 31 December 1960, the junior unrestricted line officer for whom a vacancy existed under the permanent USN grade structure had a lineal number in each grade as follows: Rear Admiral 196–00; Captain 2577–00; Commander 11613–80; Lieutenant Commander 23302–30; Lieutenant 41499–05. Permanent USN staff corps officers whose running mates are eligible for permanent promotion are also eligible.

13. The date shown in the column headed "Pay Entry Base Date" in the precedence list is the date which reflects all service for pay purposes. In the case of medical or dental officers the date includes any time spent in medical or dental school and in internship while not a member of the Armed Forces. The asterisk printed between the day and year of the Pay Entry Base Date indicates that the officer, while serving in pay grade O–1E, O–2E, or O–3E, is credited with over four (4) years' active enlisted service for pay purposes.

14. The date shown in the column headed "Professional Service Date" in the precedence list is the constructive date active duty was first performed as a medical or dental officer.

15. The names of Navy and Marine Corps retired officers—regular and reserve and those on the Temporary Disability Retired List—are shown in a separate publication which lists retired officers only. The title of that publication is "Register of Retired Commissioned and Warrant Officers, Regular and Reserve, of the United States Navy and Marine Corps," NavPers 15,939. Due to the difference in the publication date of the retired officers register in comparison with the date of this active duty officers register, some instances may be found where the name of an officer who retired during the interval between the dates will not be found in either publication.

16. In matters involving honors, ceremonies or preferences, precedence shall be given to retired officers who served on active duty in the rank in which retired vis-a-vis retired officers of the same grade holding that grade on the retired list by virtue of a combat citation promotion.

17. Errors or omissions should be reported by letter to the Chief of Naval Personnel, Attention Pers–1923.

18. Distribution of this publication is made to ships, aircraft squadrons and staffs in accordance with allowances published in BuPers Instruction 5601.1A of 12 June 1959, and to shore activities in accordance with allowances based on established needs. Commanding officers of ships and stations needing copies in excess of established allowances should make letter requests to the Chief of Naval Personnel, giving justification of need for the additional copies.

19. For the U.S. Marine Corps, distribution of this publication is made to units and organizations in accordance with Part II (Rev. 11–59), List of Marine Corps Activities, Publications Allowance and Distribution (NAVMC P–1090–Adm). Organizations needing copies in excess of established allowance should make letter requests to the Commandant of the Marine Corps (Code ABP), giving justification of need for the additional copies.
